

INSTRUCTIONS

You'll need one sheet of each colour of the rainbow, in tissue paper. place it in a neat pile ready to cut.

On the top sheet draw a line from top to bottom to create a rectangle. Repeat all along the paper. Cut along the lines. You should have 7 piles of paper.

Keeping the piles of tissue paper together you will have 7 piles of rectangles. Put each colour into its pile ready to stick on your see-through template of the Rainbow.

Start on the largest part of the rainbow which is red. Place glue in between the black lines. Stick the red tissue paper on top of the glue. Then push & mould it into shape.

Repeat till all colours are done. The colours of the rainbow in order are Red, Orange, Yellow, Green, Blue, Indigo and Violet.

Place your black sugar paper and white rainbow template on top of each other. Then fold it in half, making sure the white template is on top so you can see the rainbow.

Hold the two sheets of paper tight and cut along the outer black line of the rainbow. We need the black sugar paper should look like this and is called a Rainbow stencil.

Grab your finished rainbow, one side will feel smooth all over. This is the side we need to place the glue, all around the outside of the rainbow.

Now stick your rainbow stencil in black sugar paper, on top of your finished rainbow. You now can place it on your window so the whole world can enjoy your rainbow masterpiece. Your rainbow will glow when the sunlight shines through them. Well done!

OTHER STAIN GLASS WINDOWS...

1. Cut a big square out of your sugar paper

2. Fold the square in half which will make a rectangle.

3. Fold the rectangle in half again to make a smaller square.

4. Draw some shapes on the folded edges. Good shapes to use are rectangles, squares and circles. Make sure you leave a good gap between each shape.

WHAT YOU NEED TO MAKE YOUR STAIN GLASS WINDOW

Materials you will need:
Tissue paper, sugar paper, sissors and your gluestick.

5. Cut out your shapes and open your design.

6. Choose your tissue paper, place on top of your design. Draw a rectangle or square around the shape.

7. Place glue around your cut out shape and stick your tissue paper in place.

8. Place it on your window and see your colours glow when the sunlight shines through them. Excellent well done!

WHAT CAN YOU MAKE WITH YOUR LEFTOVERS?

1. Using all your leftover small rectangles cover your clear/transparent sheet. Make sure that you don't put the same colour next to each other. Also, try to overlap different colours. What new colour will you make

WHAT YOU NEED TO MAKE WITH YOUR LEFTOVERS

Materials you will need:
Tissue paper, sugar paper, sissors and your gluestick.

2. You can use the leftover white rainbow stencil to place on top or make a different stencil. Remember to stick your stencil on the smooth side

3. To see the best results always place your design on your window so light can shine through. Well done!

STAIN GLASS WINDOW BUNTING...

1. Cut a medium (width 10cm) and large (width 20cm) size rectangle out of your art bag. Draw a diagonal line from the bottom corner up to the top draw another diagonal line back to the bottom of the page to create a triangle repeat until the rectangle is full.

2. Cut out your triangles - these are your flags.

3. Fold your flags in half and draw a half shape in the middle of the folded edge. Carefully cut the shape out.

WHAT YOU NEED TO CREATE STAINED GLASS BUNTING

Materials you will need:
Art Kit bag, wool, tissue paper, sissors and your glue stick.

4. Open up your flag, place the glue around your shape then use leftover tissue paper and place over your shape.

5. Draw a line 1cm away from the top edge of your triangle the same side that you stuck the tissue paper to. Repeat this for both different size flags. Think of different arrangements and colour ways before you stick your flags to the wool.

6. Create a fold along your drawn line. Reopen and glue above your line, sandwich the wool in between your sticky fold and press down hard.

Excellent! Now your bunting is ready to be hung up in your windows.

ART KIT

Teacher's Skills:

This activity helps develop your child's concentration, problem-solving and fine motor skills through sticking, cutting, drawing shapes and design stencils.

It's also a great opportunity to introduce colour theory and why the colours of the rainbow are in that order.

For example, red and yellow mix together make orange and this is why it's in between them.

Create and Play!

Why not try to create stain glass insect shapes such as butterflies ladybugs and dragonflies?

Or you could think about creating stain glass leaves and flowers.
